

Access Control & Security Protection That Meets **Government** Standards

- ✓ Scalable, Access Control & Security Solutions from a Few Doors to Thousands
- ✓ Range of Options Including Enterprise with Web Client, Web-Browser-Based Systems, Cloud-Based Hosted Systems (ACaaS)
- ✓ Integrated Video, Security & Wireless Locking
- ✓ Universal Identity & Visitor Management
- ✓ Multiphase Threat-Level Management
- ✓ Super-Fast Processing - Key In Peak High-Demand Periods
- ✓ Synergistic Panels & Software
- ✓ High-Security Capabilities Mifare, & DESfire Support
- ✓ Open Architecture Integration; Easy Retrofits for Upgrades
- ✓ Global Lockdown
- ✓ Robust Multi-Database Partitioning - For Different Offices or Departments, etc.
- ✓ Numerous Technology & Integration Partners for Easy System Upgrades & Retrofits

Access Control & Security Solutions for Government

DEFENSE AND MILITARY FACILITIES

Continental® software and hardware team up for the latest identification government compliance, FIPS/TWIC/Biometric Compliant FIPS201 full reader support & multiple credential & reader formats. Continental panels' firmware supports FASC-N autonomous badge expiration evaluation for fast accurate processing; validation of ID card certificate and monitoring of Government Revocation List; PKI, & TSA Hotlist. Continental® Enterprise Access Control & Security Management Platform has complete Disaster recovery/redundant systems option for volatile environments.

POLICE, SHERIFF AND CORRECTIONAL DEPARTMENTS

Criminal, high-risk environments require absolute access control & surveillance, asset management & tightly controlled credentials, & immediate facility control. Continental offers law & peace officers all this, including **easy visitor management** with automatic badge-creation based on scannable state ID forms, auto-expiring visitor badging. **Global & local lockdown** activated by badgeholder, system operator or script, including free access doors, deployed by single or multiple APBs with "2-Person Control" option. Anti passback, timed anti passback & assigned occupancy limits are all standard.

MUNICIPAL UTILITIES

"Soft targets" such as Water & Power utilities, can be well-secured & managed by Continental systems' real time monitoring and faster response capabilities via central office reporting or **remote web client control**. Continental enables tracking of authorized & unauthorized activity on site or remotely with enhanced remote web hardware & software system configuration control & reporting. The system also offers easily deployed & time-scheduled built-in **elevator control & Global inputs/outputs** & activity links provide systemwide & individual device control, including global control using high/low counters, e.g. parking facilities.

Robust, Scalable, Continental Enterprise Access Control & Security Platform for Minimal TCO

- Control from 1 to 32,000 doors; up to 1,000,000 cardholders/panel
- Event transactions storage limited only to hard drive size
- 30,000 access groups and over 32,000 readers/ location, with no software to upgrade
- 5 Holiday calendars with 100 Holidays each
- Over 12,000 readers with 112,000 relay outputs per location
- Over 124,000 supervised alarm inputs per location

Seamless Wireless Locking Integration

- Real time integration as single-door controllers with Alarm Lock Trilogy® Networkx® Wireless Locks and customizable ArchiTech® designer locks, including auto-scheduling of door open and lock times, audit trail and choice of credentials
- Wireless installation in about an hour to any door type. Grade 1 durability, longest battery life, built in Prox Reader &/or PIN
- Immediately function as standalone access locks, can be integrated on Continental at any time thereafter

Universal Identity Management Solution

- ID credential, smart card, PIV, TWIC, FIPS 201, Mifare & DESfire and biometrics (facial, eye, hand geometry)
- Onboard storage for up to 1 million cards or 500,000 full data PIVs
- LDAP compliant single sign-ons
- Supports Active Directory at cardholder level with popular third-party utilities; Javelin Software – AD Reporter®; Netwrix Auditor®; Management Engine – ADManager Plus®

PORTS & HARBORS

These bustling environments are characterized by high traffic areas where multi-variate people and international shipments converge. Continental Systems help maritime security and port authorities keep a tight ship, with high capacities for personnel IDs & automatic validations; support for asset tracking, including asset & vehicle tags; long range cards, credentials and readers. Also Continental supports multilingual operator support, with language preference auto-loaded on user log-in: Arabic, Danish, Dutch, Russian, English, French, Greek, Polish, Portuguese, Russian and Spanish, custom language entry supported too.

GOVERNMENT & MUNICIPAL BUILDINGS

As national, state & local government security concerns increased exponentially, Continental anticipated heightened demands. **Threat Level Management**, with an unlimited amount of assignable threat level groups, 5 color-coded states, that with a click, can instantly deactivate access privileges, by badge, or badgeholder groups. To meet high-peak-times, these systems support the fastest processing, at a fraction of a second for door-open times, with PIV/TWIC & FIPS 201 evaluated at the panel, even processing full cardholder CHUID numbers. And the system supports onboard storage for up to 1 million cards or 500,000 full data PIVs. ID enrollment is data-entry error-proof, supporting an Enrollment Station Reader, which both validates certificate from the Government website & auto-populates cardholder data. Speed system changes with 50 to 75% faster downloads, direct connection with speeds in excess of 921 Kbps, using accelerated 32-bit controller processing up to 54 MIPS).

Multiphase Threat Level Management and/or Lockdown by Group, Area or System Wide

Visitor Management Solution & Custom Photo Badging Utility Open Architecture Integration

- Microsoft SQL Server database based. Competitively priced – no annual software licensing fees for low total cost of ownership
- InterAccess - Open API support allowing third parties to seamlessly integrate Continental software and harness the power and speed of hardware
- Supports a wide range of technologies and databases including partitioning, as well as importing of Microsoft® Active Directory and Oracle® exports
- Advanced Import / Export Utilities. Open data exchange of badge and personnel, ERP & other databases (e.g. Oracle)

Seamless Universal Video, Security and ID Integration Solution from Single Station

- Integration with most security systems and offers a central reporting option
- Email and SMS notification
- Integrates with third-party manufacturers of video cameras, NVRs/DVRs, biometric devices and readers, intrusion, fire, etc
- Remote System Management via web client

Proven Hardware

- Flexible range of super-fast hardware from single-door POE solution, to wireless PIN/Prox door locks, to expandable conventional or Linux-embedded controllers from 2 to 16 doors
- High quality standards, NAPCO ISO9001; 2000 Certified manufacturing facility produces onboard power supplies, relay- and lightning/ESL-protection, etc
- Built-in labor savings, upgrade migration, low maintenance costs
- Long product line continuity even in legacy systems; many field upgradeable
- Industry's longest warrantees, up to 5 years

Super Fast Speeds Even at Peak Hours

- Fastest processing performance available, (up to 921.6 Kbps communications) i.e., door opens in a fraction of a second, rapid reports and full data downloads in minutes
- Global inputs/outputs and activity links for systemwide and individual device control

Napco Access Pro Solutions Are Integrated with a Growing Number of Systems & Partner Products

- All available through us, including Alarm Lock Trilogy, Networkx & ArchiTech Wireless Access Locking, Napco Security & Fire Alarm Systems, Ganz Intelligent Video, Avigilon Video, Video Insight, Exacq, Milestone, Pelco, Salient, Hitron, Integral, BAS-IP Video Intercom, Idemia & Madeye Biometric Facial Recognition, Farpointe Data, OTIS Elevator
